VACUNA®
AN ISO 9001:2015 CERTIFIED CO.

THE UNSTOPPABLE POWER WITHIN

Inverter range batteries uses Tubular Technology and have deep cycle design. These batteries recharge very fast and are suitable for areas that suffer from frequent and long power cuts. These batteries are designed with thicker positive plates and over designed negative plates, to withstand power outage. These are the power packed batteries with more electrolyte volume and have electrolyte indicator.

Smart Tubular Batteries

30 to 60* Months Warranty

Factory Charged Battery in Ready to use Condition

Low Maintenance with Level Indicators

High Durability with Sealed Plastic Housing

DESCRIPTION

Capacity Rating C20 :- Specified in Indian standard IS 13369-1992 for UPS and Inverter battery.

Thick Spine Tubular Grids :- To cater deep discharge in long and frequent power cut.

Low Resistance PE Separators :- Avoids cell short circuit & low water loss features.

Tubular Gauntlets :- Tubular positive plates consisting of selenium alloy grids and properly balanced Active materials enclosed in chlorine free polyester gauntlets of high bursting Strength with high performance (HP)

High Charge Acceptance :- Suitable in areas of Frequent power cuts & Quick Charge Acceptance.

Well Designed :- Negative Plates over designed with special additives for long life.

Double nylon Rope Handle :- Safety and ease in handling Ceramic Vent Plug with water.

SS Fastener :- Goodbye to sulphation/corrosion on terminals and on its joints.

Level Indicator :- Acid Fumes & reduces toppiing up.
